# GETTING STARTED

**Tips for implementing Technology into your Music Classroom**

## Stay Informed

It's always going to be to your benefit to stay informed about what students actually engage with in new technology

## Stay Relevant

Check in with students and what they are using/interacting with at home. See what they like and dislike about it

## Don't Pretend

You don't have to be a 'pro' at all with new technology. You can learn alongside (or even from) your students, and help guide them along the way!

INTEGRATING TECHNOLOGY
